TIDE TABLES

FOR

SAN DIEGO (La Playa)
SAN FRANCISCO (Fort Point)
ASTORIA (Columbia River)
PORT TOWNSEND (Puget Sound)
SEATTLE (Madison Street)

AS FURNISHED BY THE

U. S. COAST & GEODETIC SURVEY

NOTE.—The tables of tides for San Francisco, San Diego, Port Townsend, Seattle and Astoria are obtained from the United States Coast and Geodetic Survey. These tides are extremely irregular, both as regards interval and height.

The two tides may occur either during the same morning or during the same afternoon. 0 h. 00 m. is midnight and 12 h. 00m. is noon. An A. M. tide in the P. M. column is marked a; a P. M. tide in the A. M. column is marked p. The height is reckoned from the level of average lower low waters, for which the soundings are given on the coast and geodetic survey charts. These predicted times are all in "Pacific Standard Time," 120th Meridan W. eight hours slower than Greenwich time. The large tide is distinguished by the letter l, and the asterisk (*) denotes that both tides are of the same height.

During the period from the last Sunday in March to the last Sunday in October, if it is desired to change to Daylight saving time add one hour to the Predictions.

Barometer

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from northwest by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from southeast by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

S. W. Winds.

Hurricane.

Small Craft Warning.—A red pennant indicates that moderately strong winds are expected.

Storm Warnings.—A red flag with a black center indicates a storm of marked violence.

The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds, white light below red, westerly winds.

Two red flags with black centers indicate approach of tropical hurricanes.

No night small craft or hurricane signals are displayed.

A standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour, commencing with the 75th meridian. The first (eastern) section includes all territory between the Atlantic Coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific Coast. Standard time is uniform inside each of these sections, and the time of each section differs from that next to it by exactly one hour. Thus at 12 noon in New York City (eastern time), the time at Chicago (central time) is 11 o'clock A. M.; at Denver (mountain time), 10 o'clock A. M., and at San Francisco (Pacific time), 9 o'clock A. M. Standard time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 18 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

Information for Business Men

Demand Notes are payable on presentation, without grace, and bear legal interest after a demand has been made, if not so written. An endorser on a demand note is holden only for a limited time, variable in different States.

A Negotiable Note must be made payable either to bearer, or be properly endorsed by the person to whose order it is made. If the endorser wishes to avoid responsibility, he can endorse "without recourse."

A Joint Note is one signed by two or more persons, who can each become liable for the whole amount.

No Grace is allowed in the majority of States on time notes after the time for payment expires. If not paid when due, the endorser, if any, should be legally notified to be holden.

Notes Falling Due on Sunday, or on a legal holiday, must be paid the day following as a rule.

Altering a Note in any manner, by the holder, makes it void.

Notes Given by Minors are void.

The Maker of a Note that is lost or stolen is not released from payment if the amount and consideration can be proven.

Notes Obtained by Fraud, or given by intoxicated persons, cannot be collected.

An Endorser has a right of action against all whose names were previously on a note endorsed by him.

A Bill of Exchange or Draft is an order drawn by one person or firm upon another, payable either at sight or at a stated future time.

A note dated on Sunday is void. An endorser of a note is exempt from liability if not served with notice of its dishonor within 24 hours of its non-payment. Notes bear interest only when so stated. Principals are responsible for their agents. Each individual in partnership is responsible for the whole amount of the debts of the firm. Ignorance of the law excuses no one. It is a fraud to conceal a fraud. It is illegal to compound a felony. The law compels no one to do impossibilities. An agreement without a consideration is void. Signatures in lead pencil are good in law. A receipt for money is not legally conclusive. The acts of one partner bind all the others. Contracts made on Sunday cannot be enforced. A contract with a minor is void. A contract made with a lunatic is void. Written contracts concerning land must be under seal.

Deposits of Money in a bank placed to the credit of depositors are always subject to their check for full amount due.

Help in Case of Accidents

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

BURNS AND SCALDS.—Cover with cooking soda, and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel, or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Fine Sunday 18. Cool. Breakfast at 9. Wrote all day until 6 P.M. & then got up. "Elizabeth & Richard" in for few moments. Wrote a little after supper on cards but bed pretty early.

Wea. fine Mon. Dec. 19, 1927 Ther.

up town on 8^{30} car & finished my shopping. City Hall for a little while. Lunch with Mrs. Moran & back to Hall as we expected Mrs. McMullen in. Mrs. Moran went to car with me at 5^{30} as Fred missed me. "Elizabeth" on car & helped me off. Fred came on next car. He is treating with Dr. Chartier-Martin for ears, a new remedy.

Wea. fine Tuesday 20 Ther.

Mary came in for a little while but cannot come again. I wrote in morning. Got up about 2^{30}. Mrs. Bowman Sr. down to see me. I did up my pkgs. for office. Fred home about 6. Lots of cards & pkgs. arriving. Letter from Francis about his engagement to Peggy Winslow - to whom he has been devoted for years.

Raining. Wea. WED. DEC. 21, 1927 Ther.

Threatening in morning & by noon began raining. Some heavy showers. Went in with Mrs. Clark & drove to City Hall. Took flowers for Kelly. Had some exams. with Mrs. Moran. Lunch with M.D's. - Deane met me & said he could not come to meeting. Gene there on time - Mr. Manly & Dave Smith in & from all we could understand he is all right. Conferred with Mr. O'Keefe & he agreed with us. Gene took me to J.M. to get Fred & took us to car. Read papers & wrote a little -

Wea. THURSDAY 22 Ther.

Clearing & by noon fine - Fred left at 12^{30} for town - Wrote a little & read some - Have taken cold & took Anti-cold. Stupid in afternoon - Man in to see cottage but wanted garage - Fred home at supper time - Mr. Miller phoned me boy murderer had been caught great excitement. Postal from Molly She will be home tomorrow.

Fine
Wea. Fri. Dec. 23, 1927 Ther.

left home on 9 car. & straight to City Hall. Exam. physical & oral until 12:45. Mrs. Inman & I went to depot. Train late & we had our lunch at depot. Mrs. Inman went back to City Hall & I waited for train. Molly did not come. Back to hall & exam. cont. Molly appeared. She had come on bus after all. She went on home & I worked until 5:30 — 28 examined. E. W. [illegible] me to talk about Smith which delayed me. Home on 6 car. & went right to bed. Molly visited with me a little while.

Wea. Saturday 24 Ther.

Sat. 24 Cool & cloudy.
Molly down early & cleaned windows &c. Busy with the dinner. I got up about 11 & helped some. Got box ready for Mr. Fuller but not in time for Fred. Rose took it later. Fred left at 12:30. Molly took a long nap & then we fixed up bundles for the children & decorated home. Fred brought me wreaths. Molly took pkgs. to neighbors.

Letters from Jane & Pat

Carollers here about 7. Molly [illegible] both in bed early.

Cleared in afternoon.

Rainy Wea. SUN. DEC. 25, 1927 Ther.

Cable from children early. Molly down singing & happy. After breakfast put on wrapper & all sat around table opening pkg. a lot of them. Helped a little about dinner. Changed dress & we three visited the rest of day. I went to bed right after supper. Del & Ada in here I went to sleep. Blew hard & began to rain about supper time.

Rainy Wea. MONDAY 26 Ther.

Mr. Schneider phoned about leaks in 898 lower. & I phoned Hastings about 896. Have just had it calcimined "All in a life time" I expect. Fred went to see Dr. Charles Martin. Archie Isla & baby saw Mr. Coy with them. Fred home about noon. Mrs. Foote died yesterday. Phoned Grace.

Rained in night.

Wea. TUES. DEC. 27, 1927 Ther.

Showers.

Woke early in distress - About
4. called Fred. Peppermint &
Nitrate of Amyl. Suppos. & bowels
moved freely all day. Some pain
but mostly distress. Fred went
to town in morning & Molly in
afternoon - She picked out some
rugs for me. Towards night had
hypo. & soon asleep - Molly & Fred
visited Mack Carley here to see about
the chimney. Molly went up
with him.

Wea. WEDNESDAY 28 Ther.

Some showers - Rain at night -
Had good night & some better -
Phoned a little but quiet most
of day. Molly & Fred up to "Roman
Lunch" & Molly with Miss Waterman
later. Rose here until about
3. Fred home at 8.^{30}

Rain most of day.

Wea. THUR. DEC. 29, 1927 Ther.

Had bad time about 4. again but relieved with peppermint. Took Ol Ricini at breakfast time. Good results and felt better towards night. Rose here to wash but no chance of drying. New rugs came & look fine. A great delight to me.

Rainy - Wea. FRIDAY 30 Ther. Clear a little while.

Had distress early & had to have Nitrite of Amyle. Very tired after it & some pain. Fred up town in morning & Molly in afternoon. Aha brought her home but could not stay long. "Elizabeth" in in the evening & had some music. "Richard" visited with Fred. I put out light & went to sleep. Xmas. cards still coming.

Fine.

Wea. SAT. DEC. 31, 1927 Ther.

Good night & felt fine in morning. Fred went up about 10 & Mody at 10^{30} & met at Dr. Moores. Mody lunched with Alsa & Georgina Home at 3. & worked on my clothes until 5. Then went up to Georginas for the night. Rose here for a little while.

In bed all day as I was very tired.
